## PROFILE SUMMARY

Full Stack Developer & Technical Lead with **1.4+ years of professional experience**, **7 months of internship**, and **freelance expertise**. Proven in delivering scalable, production-ready web/mobile solutions with **Django**, **React.js**, **PostgreSQL**, and **DevOps pipelines**. Adept at **system design**, **PWA development**, **SEO**, and **cloud deployment**. Recognized for clear communication, client engagement, and driving cross-functional teams in fast-paced startup environments.

## TECHNICAL SKILLS

- **Frontend:** React.js, React Native, HTML, Tailwind CSS, Bootstrap
- **Backend:** Django (Python), CodeIgniter (PHP), REST APIs
- **Databases:** PostgreSQL, MySQL
- **DevOps & Hosting:** VPS (Ubuntu), Nginx, Gunicorn, Hostinger, Bluehost, GoDaddy
- **Tools & SEO:** GitHub, Postman, Celery, Redis, Firebase Notifications, Google Search Console, Screaming Frog, Sitemap/Schema Validation
- **CMS & Web:** WordPress, WooCommerce, Progressive Web Apps (PWA)
- **Design & Branding:** Canva, Figma, AI Tools (branding, logo, Prompt Engineering)

## CORE RESPONSIBILITIES

- **Solution Architecture:** Designed scalable system architectures, workflows, and technical roadmaps.
- **Deployment & Hosting:** Configured VPS/Cloud servers with Nginx, Gunicorn, SSL/HTTPS, and CI/CD pipelines.
- **Database Management:** Built optimized PostgreSQL/MySQL schemas, queries, and automated backups.
- **Version Control:** Managed GitHub repositories and branching strategies.
- **Branding & Content:** Delivered AI-driven logos, product decks, and launch assets.
- **Client Engagement:** Conducted requirement analysis, proposals, demos, and end-to-end documentation.
- **Team Leadership:** Mentored developers, led agile sprints, and ensured on-time delivery of SaaS/PWA solutions.

## WORK EXPERIENCE

**IMR Tech Solutions, Pune (Parent: Introspective Market Research) | Feb 2024 – Nov 2025**

**Full Stack Developer & Technical Team Lead**

- Promoted to full-time after a 5-month internship, becoming the first IT hire to establish the division.
- Owned the end-to-end project lifecycle: requirement analysis, estimation, architecture, development, deployment, and client demos.
- Led cross-functional teams with task planning, timelines, and technical direction.
- Delivered SaaS platforms (Django, CodeIgniter, React, PostgreSQL) and deployed on VPS/Cloud.
- Introduced PWA-first strategy, enabling cost-effective mobile + web delivery for clients.
- Designed the IMR Tech Solutions logo via AI prompts and built AI-driven branding assets.
- Produced system architectures, flowcharts, and product presentations that shaped client decisions.

**Zerovaega Technologies, Kolhapur | Dec 2022 – Jan 2023**

**Web Developer Intern**

- Enhanced and maintained Zerostore website using ProcessWire CMS.
- Designed and developed interactive features and new pages to improve engagement.
- Promoted to junior developer after successfully completing a 5-month internship.
- Contributed to marketing visuals and digital assets using Canva.
